We at **Global Voice & Data Solutions** hereby offer solutions to all Facilities to protect their Management, Staff, Learners and Teachers to be Covid-19 (Corona virus free) as this Pandemic hits our Country and the World.

Pandemics are striking with greater frequency primarily because of deforestation, environmental degradation, rapid urbanisation, overpopulation, migration and growing animal and human conflict. There is no herd or population immunity against new pathogens such as the Sars-Cov-2 that causes the coronavirus disease (Covid-19), and till herd or population immunity crosses 70%, it will continue to spread. In these circumstances, public health interventions in combination with an effective vaccine may mitigate the situation.

“The world is going through a period of crisis, but whether we look at it as a crisis or as an opportunity to reshape our thinking depends on us.”

100 maximum at indoor gatherings

500 maximum at outdoor gatherings

2 maximum visitors to aged care residents

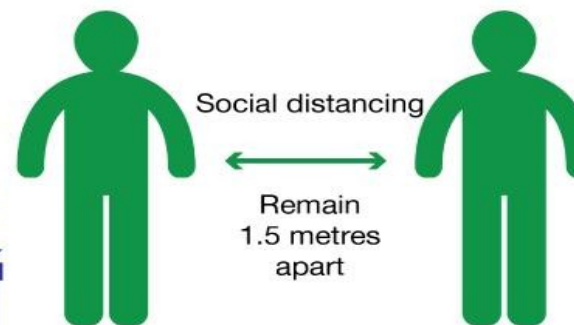

Level 4 travel ban

Do not shake hands

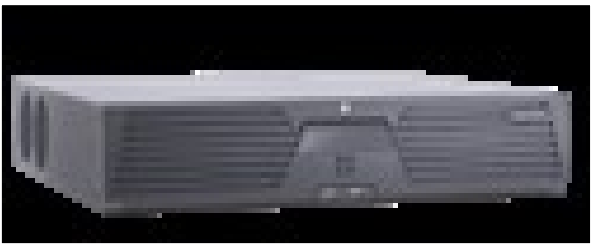

Essential gatherings exempt from restrictions include

Public transport, airports, health care facilities, parliaments, courts, correctional facilities, shopping centres, office buildings, factories, schools and universities, child care facilities, hotels

GLOBAL
